

THE SITMUN PROJECT

Interreg IIB SUDOE

Oficina Tècnica de Cartografia i SIG Local

Diputació de Barcelona

SITMUN: An European project

Acronym.....: **SITMUN**

Project title....: **Sistema de Información Territorial MUNICIPAL (MUNicipal Territorial Information System)**

Community Initiative Programme: **Interreg IIIB SUDOE**

Partners.....: **7 main ones / 15 collaborators (Spain, France, Portugal)**

September 2002: Presentation of the project to the INTERREG III B SUDOE programme

May 2003: Project aproval

October 2003: Project beginning

Junio 2005: Project end

Total budget: **882.050,00 €**

✓ FEDER counterpart: 490.100,00 €

✓ National public counterpart: 391.950,00 €

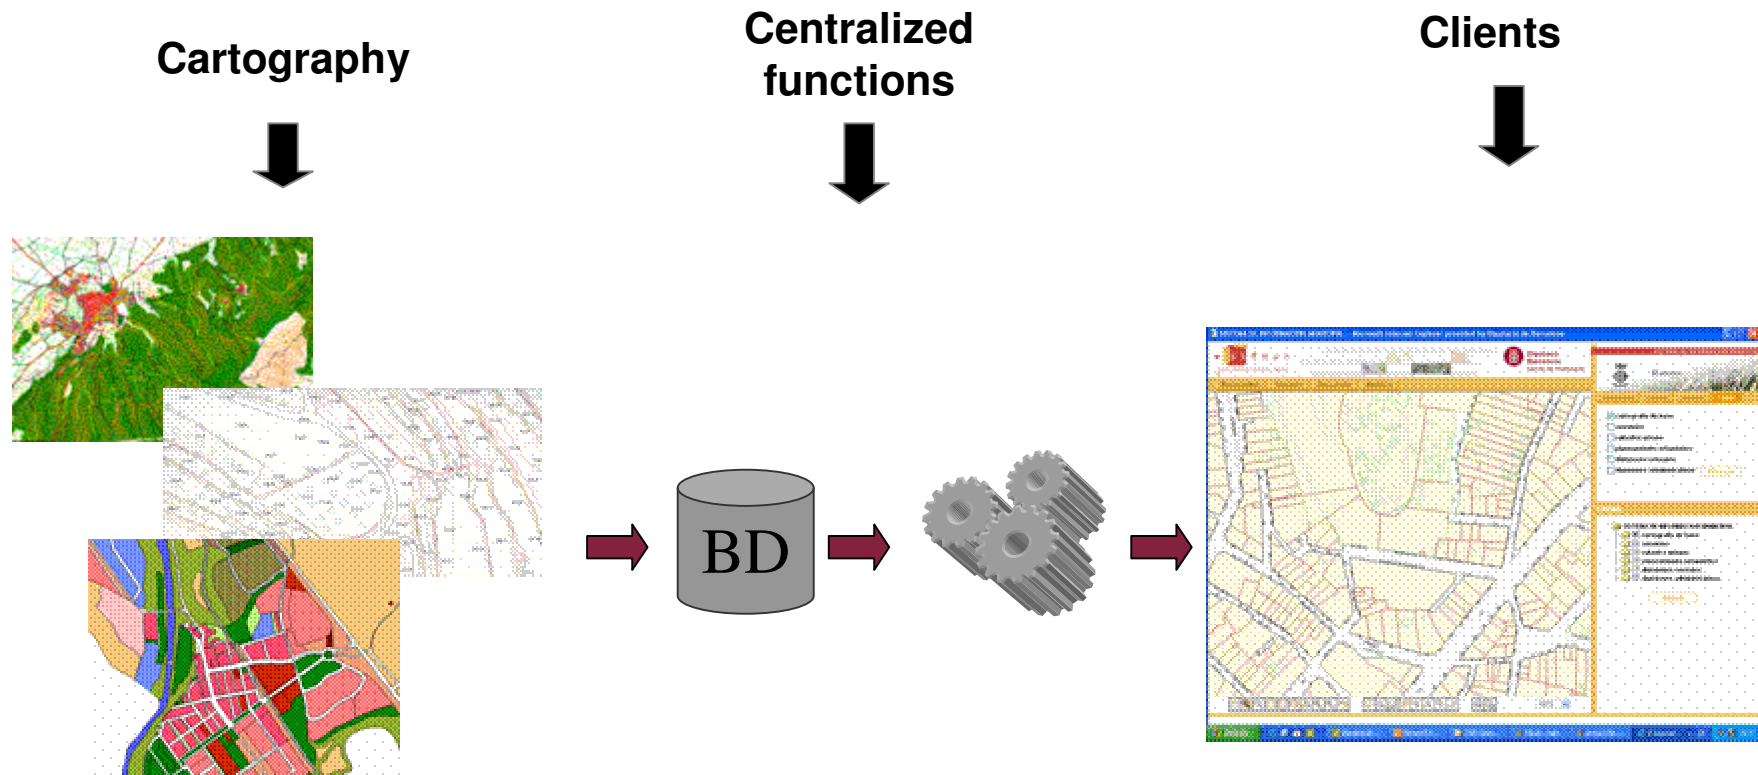

SITMUN: the partners

MAIN PARTNERS	
1. Diputació de Barcelona (Coordinator)	ES
2. Gobierno de Cantabria	ES
3. Consorci d'Informàtica Local de Mallorca	ES
4. Consell Insular de Menorca	ES
5. Universitat Autònoma de Barcelona	ES
6. Universitat de les Illes Balears	ES
7. Assoc. Municípios da Terra Quente Transmontana	PT

SITMUN: the partners

COLLABORATOR PARTNERS	
Diputació de Tarragona	ES
Diputació de Girona	ES
Diputació de Lleida	ES
Consortio Localret	ES
Agence Départ. d'Aide aux Collectivités Locals des Landes	FR
Associação de Municípios do Oeste	PT
Red Partenalia	ES
Arco Latino	ES
Université de Perpignan	FR
Câmara Municipal do Funchal	PT
Universidad de Chile	SDA
Universidad de Alicante	ES
Ajuntament de Sant Boi	ES

SITMUN: description of the project

SITMUN: technological innovation

SITMUN is a TIS (Territorial Information System) project, based upon GIS technology, which has been conceived as an integrating solution of the municipal management that refers to the territory.

Advantages:

- Centralized system in the supramunicipal entity
- Offered as a service to the municipalities with few resources
- It may be configured to any municipalities aggregation
- It fosters the standardization and structuring of the information
- System easily expandable

SITMUN: innovation of the process

- Elaboration of a document type for the editing of the annex documents to send to the Secretariat → Facilitates common editing
- Constant and careful follow up of the partners tasks: meetings, e-mails,...
- Clear goals before every follow up meeting
- Calendar since the beginning of the project
- Editing of the Communication Plan
- Good implication of the main and collaborator partners
- Commonly agreed decisions in the meetings
- Particular tasks assigned to every partner avoiding duplicities

SITMUN: Impact in the mid/long run

Initially the project includes the following types of cartography:

- Topographical
- Cadastre
- Streets map
- Ortophotomaps

In the foreseeable future:

- Urban planning
- Facilities
- Inventories
-

→ Impact in many more thematic areas

SITMUN: transferency possibilities

Addressed to:

- Municipalities
- Counties, provinces, regions,...
- Supramunicipal entities (SUDOE)

SITMUN: European Network
